### Snarling Again.

Several of Devine's local option cases were again knocked into cocked hats in the County Court here this week. The Anvil Herald does not profess to know anything about the merits of these cases, but it does look to us like, that for the sake of the tax-payers who foot the bills, Devine should quit burdening the docket of our court with cases unless she can furnish the necessary evidence to convict.—Hondo Anvil Herald.

These cases came via a Medina county grand jury, sitting at Hondo.

And sent up by citizens of the Devine precinct.

—We do not know their merit. Devine citizens pay taxes for the purpose of enforcing the laws and we have never failed to put every known violation up to the county.

And many more "supposed" violations.

—We never get a conviction in such cases.

Think again, and see if you have manhood enough to correct that statement.

—Either prohibition prohibits at Devine or other parts of the county are responsible.

Devine furnishes part of the juries as well as pays part of the taxes. Why try to shift the responsibilities?

—We do our duty.—Devine News.

Since the editor of the News was once a beneficiary of the state's failure to get a conviction on a Medina county grand jury indictment for violating the local option laws, it would appear that "doing our duty," as he understands it, is having the cases quashed. Why didn't he set the illustrious example in his individual case of having it tried on its merits and be confronted by his accuser?

We still contend that Devine should furnish the proof—even if she must send to Oklahoma for her witnesses—to secure conviction—even though the accused be a prominent preacher-editor—or else quit burdening the tax-payers—its own as well as those of other parts of the county—with such cases.

In reply to the question, from the audience at a prohibition rally at the court house Tuesday evening, if the district court docket of dry Uvalde county was not longer than the district court docket of Medina county with her saloons, and if it did not take longer to dispose of its court business, the speaker begged the question by saying that the laws are better enforced in dry territory than in wet. As the judge and district attorney are the same for each county, his covert accusation that Medina county does not enforce the law is a reflection upon the law-abiding character of every officer and citizen, pro or anti, in our county which we believe to be unwarranted; and we were surprised and grieved that there should have been men to endorse such a reflection not alone upon themselves individually as citizens but upon their county as a whole. If the people of Medina county are a bunch of outlaws peopling a land where the laws are not enforced let those who endorse the accusation name the specific instance of violation and go before the grand jury at its next term and see that it is punished or else repudiate this aspersion of an intolerant holier-than-thou outsider. For shame on a cause so desperate as to need such a defense!

THE editor of this paper returned Sunday from a three days' attendance upon the annual meeting of the Southwest Texas Press and Commercial Association held at Alpine. The meeting was a very successful one both from a business and social standpoint. Editor W. J. Yates of the Alpine Avalanche was elected President and Editor J. M. McLeese of the Carrizo Springs Javelin was elected Secretary and Treasurer. Carrizo Springs was selected as the next meeting place. The hospitality of the good people of Alpine and all that section is unbounded, and we regret that time and space will not permit an effort to express a part of the deep appreciation we feel for the kindness shown us.

ANOTHER thing: Be sure to make the right distinction between prohibition and temperance. Temperance, in all things, is a most commendable virtue. As large a percentage of antis as of pros are believers in and practitioners of temperance. A small percentage of both fail to live up to their belief. The antis have excellent grounds for their contention that statewide prohibition would increase rather than diminish this percentage of unfortunate inebriates. It has done so in states where prohibition has been tried and proven a failure.—Nordheim View.

### Died.

Death has again invaded the ranks of the original Castro colonists and this time removed one of the old land-marks of Medina County in the person of Mrs. Barbara Graff, nee Bartz, relict of the late Louis Graff, who died at the home of her son, Charlie Graff, at 6 o'clock Saturday morning, July 15, 1911, of old age and ailments incident thereto.

The deceased was born in Alsace, Germany, February 2, 1825. She came to Texas in 1847 as a Castro colonist, and on November 2nd of the same year was married to Mr. Louis Graff in Castroville, the then pastor at that place, afterwards Bishop, Father Dubuis, officiating. They lived for a while in San Antonio, but the greater part of their life was spent in Medina County, first at Castroville, then across the river at the old Cagnon place, then on the Sauz, then on the Hondo Creek just north east of the County bridge on the Hondo-Castroville and Dunlay road, and later on their farm a few miles east of Hondo where Mr. Graff died December 23, 1908. Since his death, the deceased has made her home with her son, Charlie Graff, at which place she died.

Mrs. Graff was the mother of seven children, five boys and two girls. Two sons died in infancy. One daughter, Emily, wife of Geo. H. Bendele, died February 2, 1895, and Lina, wife of C. L. Dwyer, died July 30, 1902. She is survived by three sons, Charles, F. L. and Emil Graff and twenty-six grandchildren and twenty-one great-grandchildren.

The remains were interred in the family graveyard by the side of those of her late companion Sunday, July 16, 1911, at 10:30 o'clock a. m. Rev. Father H. M. J. Wirtz performing the obsequies. A large concourse of sorrowing relatives and friends followed the remains to their final resting place. A faithful wife and Christian mother has gone to her reward in heaven. The Anvil Herald joins in sympathy for those who mourn her death but rejoices with them in the hope of a home where old age and death can never come to bear our loved ones away.

### Streets and Houses to be Marked and Numbered.

A representative of the San Antonio Number and Directory company has been in Hondo for the purpose of looking over the situation of numbering the town and placing street signs on all streets with the Philadelphia system. This will be a very great help, both in appearance and in a commercial way to the city. It impresses a stranger very favorably, especially those who come to the city with prospects of locating; and is also one of the necessary steps that is taken for Free Mail Service, and while Hondo is premature at the present time, it will be ready when the Post Office receipts will permit the town to apply for Free Mail Service.

The work of numbering the houses of Hondo will start Monday, July 24th. The town will be laid out in a systematic manner with house numbers and street signs, and it is hoped that the citizens of Hondo will look at this in a business-like way and do all they can to start this work in the way of having their own houses numbered and encouraging others to do likewise.

The enumerators will call at each house, furnish and deliver the correct number on your house, tacking same above the door, for 50 cents, and, as stated before, it is hoped that every one will lend a hand to the extent asked so that the work can be completed at the earliest possible date.

### Philathea Class Meeting.

The Philathea Class was entertained by Miss Willie Fly on Tuesday, July 18th.

The lesson was conducted by Mrs. Hickman. Subject, "The Missions of the M. E. Church, South."

A very pleasant study period followed, taking in the study of our missions in China, Japan, Korea, Brazil, Mexico and Cuba. The talk on Mexico by Miss Alice Newton proved very interesting as she has been an eye witness to the missions in that country.

Following was a delightful course of fruit punch and cake, which was refreshing to all.

The instrumental solo by Miss Alice Newton and the reading by Miss Pearl Newton were both greatly enjoyed.

The meeting adjourned after having spent a most delightful afternoon.

Those present were: Mesdames Fly, Horger, McClougherty, King, Hickman, Chancey, and Misses Fly, Hearne, Johnson, Newton and King.

The next meeting will be held with Miss Mae Routt, Tuesday, August 1.

CONTRIBUTED.

### For Sale.

320 acres practically all heavy farming land, 60 acres in cultivation, good well, rent house, etc. Part cash, and balance on easy terms. H. R. BAILEY, Elstone Texas.

### Base Ball Dope.

The Devine 2nd nine came over Sunday on the W.A.G.O.N Interurban line and played three games with the Hondo Juniors Monday. The first game was played in the morning. The Hondo kids skinned them to the tune of 9 to 7. The Devine Frying Size captured the second game by a score of 11 to 9. The third and last spasm was a tame portrayal of the National game, as the kids were all tired and decidedly over-trained. Hondo easily loped off with the last game. Score, 3 to 1. PINKIE.

The Hondo base ball team added another game to its long string of victories last Wednesday afternoon, when they defeated the Sabinal team by the score of 5 to 4. The game was close and exciting and was witnessed by a large number of Hondo "fans", including the "fair ones".

The local team began its scoring in the first inning when they took advantage of Redford's curves and Sabinal's errors and scored two runs. After that the visiting pitcher pitched good ball until the fifth inning, when Hondo got busy again and scored three runs against their opponents. Felix Richter was on the mound for the Hondo team and pitched shut-out ball up to the sixth inning, at this period he weakened and this, aided by the ragged playing of both the infield and outfield of the local aggregation, enabled Sabinal to cross the plate three times. Towards the end Sabinal continued rallying, but Hondo settled down little by little and the visitors could not overtake the long lead already obtained by the home team in the first few innings.

Hondo's draw-back in Wednesday's game was the lack of form, otherwise the Sabinalites would not have had the easy sailing they did in playing such a close game against the Hondoites.

Batteries: Hondo, F. Richter and M. Schmitt; Sabinal, Redford and Elliott. Umpire, Dr. Smith.

### What's The Difference.

Charles Mayfield, Chairman of State Railroad Commission states that during the past year there were killed and wounded by the railroads in the United States, the following:

Number killed..... 3,804 persons  
Number wounded..... 82,374 persons

Making a total of kill-

ed and wounded..... 86,178 persons

Let us vote the railroads out next election? Whiskey and beer are not in it when it comes to killing and wounding people!

### Railway Time INSPECTION

Americans are the greatest travelers in the world. American railway service is the best in the world. American Railway Time Inspection is necessarily the most rigid in the world. The South Bend Watch having been submitted to rigid examinations and a series of the most exacting tests conducted for this special purpose by some of the principal chief Railway Inspectors has not only fully met all requirements but has done so with a larger margin in its favor than has ever previously been secured by an equal number of watches.

Local Manager J. B. Hurt has received notice from the Southwestern Tel. & Tel. Co. that the Company will furnish returns of the Prohibition election Saturday night to each of its offices all over the state, and all operators are instructed to receive and forward such news. This will be a great convenience to those interested in the result of the election.

R. Meyer, representing the San Antonio Number & Directory Co., was here Tuesday to interest our people in having the streets marked on each corner and the houses of the city numbered. This would be a great convenience and would give our town a city appearance. Several citizens have placed street signs on their corners but this is not as good as if the marking was uniform all over the town. Mr. Meyer expects to return to our town Monday and hopes to be able to proceed with the work at once.

Hon. J. F. Carl, District Attorney of Bexar County, spoke to about fifty voters at the courthouse at three o'clock p. m. Tuesday, in opposition to the pending prohibition Amendment. Mr. Carl came almost unheralded and this accounted for the smallness of his crowd. Those who were fortunate enough to be present were treated to a very able, fair and dignified presentation of the issue from the anti-standpoint. He said the question was not one of saloon or no saloon, as our pro-friends would have us believe, but a question of which is the more expedient—to maintain our present system or trample upon the principle of local self-government, and with it all of the traditions and hopes of the fathers, to try this experiment of statewide. Around this key-note he built an argument, based upon the legal, historical, business and common-sense features of the question, that is impregnable and should be conclusive to every open mind. From here he returned to San Antonio and went from there to Uvalde Wednesday, and thence to points on the I. & G. N. Ry. Mr. Carl, in his calm, logical way, is making votes for the cause of local self-government wherever he can get a hearing.

## The Final Word.

To-day the people of Texas vote on whether the present system of local option regulation of the sale of liquor shall be preserved inviolate or the same shall be destroyed to make room for the experiment of state-wide prohibition, as proposed by the advocates of the pending Amendment to the Constitution. It is every man's duty to vote on this proposition, and no good citizen will fail of his duty or allow any one's hysterics or cajolery to intimidate him into casting his ballot in any other manner than as his individual reason and conscience dictates. Whatever the result, only he who has acted thus can feel satisfied, and they who have so acted will be the ones to most cheerfully conform to the will of the majority, be the result what it may.

It is not necessary to review the campaign. Its developments are known of all who cared to keep posted. Only a brief resume here is all that is necessary. And even that might be summed up in the statement that the prohibitionists have virtually argued themselves out of the court of public opinion. At first, the liquor evil was the cause of most of the ills to which human frailty is heir and they proposed to wipe this evil out of existence. Now we are told that we can drink all of the liquor we want under the operation of state-wide. As the drinking of liquor is what produces the ills that flow from it and as no one will contend that we are drinking more now than we want, it follows that there will be as many ills from it under the new order as there is under the old; and it must follow that the toper and his suffering innocents have been abandoned by the pros. and the tears shed in their behalf heretofore were merely hypocritical nonsense. A great hue and cry was raised about the money wasted for liquor. But again we are told that under the new order we can drink all the liquor we want. As the liquor must be purchased before it can be drunk it follows that as much money or more must be spent for it as ever, hence that plea falls to nothing. So it is with one argument after another as proposed by the pros. It's fog has been dissipated before the sunrise of logic and reason until they have been driven to the last rally behind the cry to destroy the saloon. The rallying cry is to divorce the state from the liquor business. But again are we told that we can drink all of the liquor we want. By whose consent? The consent of the state, of course! Hence there can be no escaping the responsibility, and only the weakling who would dodge his responsibility will be deceived by such a plea. The responsibility is ours, and the question for each citizen to decide is whether it is better to retain our present system or try the system proposed by the pros., a system which they admit will not lessen the consumption of liquor and, therefore, can not lessen the waste of money for its purchase or the ills that flow from a too free use or over-indulgence in it.

To arrive at a reasonable conclusion as to which is to be preferred, a brief comparison of the system we now have and the one proposed is appropriate. Under the proposed plan there

are three ways to acquire liquor. First, illegally; a plan only the lawless wish to resort to and to be considered here only in so far as it may be said that the harder you make it to legally acquire it the greater temptation you throw before the lawless to ply the trade and the drinker to buy his liquor from the illicit dealer or manufacturer. Second, make it; a plan so impractical as to make the suggestion absurd. Who can afford a brewery in his back yard or a distillery in his kitchen, where he can distill his morning's eye-opener or brew his cold bottle for his luncheon, as he now provides his coffee or tea? Third, to buy it. Until the pros. can induce congress to outlaw interstate shipments of liquor, as they are striving to do, it can be bought outside of the state and be shipped in; but this plan will last only so long as their influence can accomplish the outlawing of such shipment, and then only the two before mentioned plans of securing liquor will be left. But presuming that interstate shipments will not be interfered with, let us compare that plan with the present plan of supplying oneself with liquor.

Under that plan, any one—man or child—can send to the mail-order-house and buy what he wants. Under the present plan, a plan that will remain as it is if the amendment is defeated, only those of legal age and who are not habitual drunkards can get it. You buy it from your home dealer who is bonded to run a decent and orderly place and to sell you only the genuine article. From the mail order house you must take his adulterations and that, too, at an extortionate price for it is bought sight unseen from a man under no restraint or responsibility to you. The local dealer contributes to the support of his state and county through paying taxes; the mail-order dealer does not. Yet if men can drink all the liquor they want his liquor will produce the same crime that the other dealer's would. Granting, for the sake of the argument, that liquor produces the crime charged to it, why trade off one producer of crime who is helping you to take care of the criminal for another who contributes nothing towards remedying the evils that he is producing? Common sense would say don't do it. But we are told that we would get rid of the saloon's influence in politics. That is the last despairing wail of the pro. who has abandoned or been driven from every other position. Neither reason nor history either bear out this contention. Does it not stand to reason that the co-operative clubs will be more powerful in their political influence than the isolated retail dealer? It is the men who exert their influence, and the liquor is only a means to that end. The men we will still have with us, saloon or no saloon, and those who would use liquor for political purposes will find the means to so use it. Notwithstanding Mississippi has been dry for years, there is a man of national reputation who is running for office in that state now who claims that liquor was one of the means employed to defeat him for the same office last year. So we see another and the last citadel of the pro. tumbling to ruins about his devoted head.

If prohibition has any excuse

for existence it is on the plea that it will promote temperance. This plea they abandon when they admit that the plan proposed will permit people to still drink all they want. Therefore, the issue resolves itself into the question of whether we prefer to shoulder the responsibility we now share by maintaining the present system of regulation or assume the responsibility of destroying this system, together with the application of the principle of local self-government to the handling of the problem, and the confiscation of thousands of dollars of property of our citizens now devoted to the making and handling of liquor, and turn the handling of the problem over to the moonshiner and bootlegger on the one hand and the irresponsible mail-order shark on the other in order to try the doubtful experiment of statewide prohibition.

It, therefore, appears to us that in the light of the present status of the question all men should go to the polls today and vote to make it unanimous to retain inviolate the system we now have rather than to fly to ills that we know not of in the statewide experiment.

To us the way seems so plain that we fail to understand how any one seeking only the best interests of his country can hesitate therein. We hope and believe the people of this great state will make no mistake in their decision at the polls to-day. We will not if all go to the polls and do their duty as conscience and reason dictate, for when all do their duty the collective wisdom and integrity of the people will find out the correct course and all will be well with this great and grand state of ours. As an individual unit in this great whole, do your duty as God has given you to see that duty.

# CRISIS IN AFFAIRS OF TEXAS VITALLY INVOLVES ITS WELFARE

The Weapon of Religious Terrorism, Ostracism and Outlawry  
Has Been Brought Into Use to Force Statewide Prohibition Upon the People of this Great State.

the People of Texas:

is the conviction of the sign-  
of this address that the pres-  
prohibition campaign has  
duced a crisis in the affairs  
this State that vitally in-  
volves its welfare, and that  
ould arouse the concern of  
every man that cherishes a re-  
spect for its political integrity  
and the peace and happiness of  
the people. We believe it to be  
a public duty to invite your calm  
judgment to a consideration of  
the merits and invoke your  
early resolution to resistance  
its disastrous consequences.

At the outset of the campaign  
was a common belief that the  
prohibition movement involved  
an effort upon the part of  
advocates to bring about the  
prohibition of the sale of intoxi-  
cants in Texas by means of a  
constitutional amendment. Good  
faith and patriotic purpose were  
needed to those who believed  
the virtue of this method of  
dealing with the question and  
who were proposing it for incor-  
poration into our organic laws;  
and all men found encourage-  
ment in the hope that in order  
to a fair decision to be reached  
in the merits of the question  
this untrammelled issue would  
be squarely presented to the peo-  
ple and that it would be definite-  
ly settled in accordance with  
their sovereign will.

The progress of the campaign  
of the prohibitionists for the  
past few weeks, however, has  
revealed that this is no longer  
the issue that is presented and  
that the proscription of the sale  
of intoxicants is but an incident-  
al part of their purpose in the  
contest.

With an intolerance breath-  
ing the fanatical spirit of the  
middle ages and an abandon-  
ment marks a desperate cause,  
they have denounced every man  
who does not stupinely subscribe  
to their theory of the question—  
however opposed he might be to  
the saloon and the liquor traffic  
and however splendid a record  
of patriotism and devotion to  
the moral welfare of the State  
his life might present—as be-  
longing to "the saloon crowd"  
or as a member of "a corrupt  
whisky ring."

Emboldened by their own li-  
cense and not content with hav-  
ing flaunted this insult in the  
faces of thousands of as good  
and true men as live in any com-  
monwealth, they have openly  
proclaimed in effect that should  
they prevail in the contest there  
will be inaugurated against all  
men who do not agree with  
them an era of political proscrip-  
tion as bitter as the draught of  
the cup that in a cruel time of  
angry passions was pressed to  
the lips of the Southern people.  
Has their ruthless career  
ceased with these bold ad-  
vances? Individuals who have  
stood aloof from the strife of  
the campaign might still have  
been willing to maintain their  
silence in the hope that this de-  
nunciation and this threat would  
pass with the fever of the con-

test and in the conviction that  
the sober thought of the people  
might be safely trusted as a  
bulwark against such appeals.

It is manifest, however, that  
in the passing hours of the con-  
test their purpose to employ the  
final weapon of fanaticism and  
with it cow into submission  
enough votes to insure the suc-  
cess of their program—the  
weapon of religious terrorism,  
ostracism and outlawry. Al-  
ready has that battle cry been  
given by some of their leaders,  
and it is today sounding down  
their line. Already in peaceful  
communities has the ban of the  
religious outcast been put on  
humble and devoted citizens who  
dare to own an honest convic-  
tion that Statewide prohibition  
is not the wise or true method  
to settle this question. And al-  
ready it is manifested that their  
purpose is not merely to make  
this a moral or political question  
as they have heretofore pro-  
posed, but to make it a religious  
question as well.

We therefore declare that the  
issue they now tender to the  
people of Texas has passed be-  
yond the mere prohibition ques-  
tion. It is the issue of religious  
and political liberty that now  
confronts us. The election of  
July 22 is not to determine alone  
the prohibition question. It  
must decide whether a tyranny  
of opinion shall be established  
in this State, and whether our  
peace shall be surrendered to the  
political program these gentle-  
men threaten to inaugurate.

We sound no doctrine of alarm  
when we say that the time has  
come in this campaign for the  
patriotic citizenship of Texas  
who have a concern for her hap-  
piness as a people and for her  
glory as a commonwealth, to  
lock their shields in a stern and  
unbroken front against this  
spirit that would dedicate her  
solely to bitter and relentless  
political warfare for the years to  
come.

Let every man vote a free  
man's conviction upon this ques-  
tion, for the amendment if he  
believes in its wisdom, or against  
it if he be opposed to it. But let  
no man be swerved from a free  
man's duty to cast a true vote;  
and let every man see that every  
other man has the same oppor-  
tunity in the face of anathema  
from the pulpit or elsewhere. It  
is as important that this elec-  
tion should be free from coercion  
as from corruption. Let every  
ballot be free from the stain of  
both.

## Proposed Amendment TO THE STATE CONSTITUTION PROHIBIT- ING THE MANUFACTURE, SALE, BARTER AND EXCHANGE OF INTOXICATING LIQUORS EXCEPT FOR MEDICINAL, SCIENTIFIC AND SACRAMENTAL PURPOSES.

HOUSE JOINT RESOLUTION No. 2.

A resolution proposing to amend the Con-  
stitution of the State of Texas, by amending Ar-  
ticle 16, Section 20, thereof by striking out  
and repealing said section, and substituting in  
lieu thereof a new Section 20, prohibiting the man-  
ufacture for purposes of sale, barter or exchange,  
and the sale, barter and exchange of intoxicating  
liquors, on and after the second Tuesday in Jan-  
uary, A. D. 1912, within this State, except for med-  
icinal, scientific and sacramental purposes,  
and providing that the Legislature of the State of  
Texas shall, at noon on the second Tuesday in Jan-  
uary, A. D. 1912, by authority of this section,  
meet in session in the city of Austin, and pass  
efficient laws to enforce this section; providing,  
further, that this section shall not prevent any  
session of the Legislature from passing any law  
to enforce the same; and, providing, further, that  
all laws in force when this amendment is adopt-  
ed, providing penalties or forfeitures in relation  
to the manufacture, sale or transportation of in-  
toxicating liquors, shall remain in full force and  
effect until modified or repealed; fixing the time  
for the election for the adoption or rejection of  
said proposed constitutional amendment, direct-  
ing a proclamation in that behalf and making certain  
provisions for said election and the ballots  
thereof, and method of voting; prescribing cer-  
tain duties for the Governor of this State, and  
making an appropriation to defray the expenses  
of said election.

BE IT RESOLVED BY THE LEGISLATURE OF THE  
STATE OF TEXAS:

SECTION 1. That article 16 of the Constitution  
of the State of Texas be amended by striking out  
and repealing Section 20 thereof, and substitut-  
ing in lieu of said Section 20 the following:

SECTION 20. The manufacture for purposes of  
sale, barter or exchange, and the sale, barter and  
exchange of intoxicating liquors on and after  
the second Tuesday in January, A. D. 1912, is  
hereby prohibited within this State, except for  
medicinal, scientific and sacramental purposes.  
The Legislature of the State of Texas shall, at  
noon, on the second Tuesday in January, A. D.  
1912, by authority of this section, meet in session  
in the city of Austin and pass efficient laws to  
enforce this section; but nothing in this section  
shall prevent any session of the Legislature from  
passing any law to enforce the same; and all laws  
in force when this amendment is adopted pro-  
viding penalties, forfeitures or forfeitures in re-  
lation to the manufacture, sale or transportation  
of intoxicating liquors shall remain in full force  
and effect until modified or repealed.

SEC. 2. The foregoing constitutional amend-  
ment shall be submitted to a vote of the qualified  
electors for members of the Legislature at an  
election to be held throughout the State of Texas  
on the fourth Saturday in July, being the twenty-  
second day thereof, A. D. 1911. At said election  
the vote shall be by official ballot, which shall  
have printed or written at the top thereof in plain  
letters the words "Official Ballot."

Said ballot shall have also written or printed  
thereon the words "For Prohibition," and the  
words "Against Prohibition."

All the voters favoring said proposed amend-  
ment shall make the words "Against Prohibition"  
by making a mark through the same, and those  
opposing it shall erase the words "For Prohi-  
bition." If a majority of the votes cast at  
said election shall be "For Prohibition" said  
amendment shall be declared adopted. If a ma-  
jority of the votes shall be "Against Prohibition"  
said amendment shall be lost and so declared.

All the provisions of the general election laws  
as amended and in force at the time said election  
is held shall govern in all respects as to the qual-  
ifications of the electors, the method of holding  
such election, and in all other respects, as far  
as such election laws can be made applicable.

SEC. 3. The Governor of this State is hereby  
directed to issue the necessary proclamation  
for said election and to have the same published  
as required by the Constitution and laws of this  
State.

SEC. 4. The sum of five thousand (\$5000) dol-  
lars, or so much thereof as may be necessary, is  
hereby appropriated out of any funds in the  
State Treasury, not otherwise appropriated, to  
defray the expense of such proclamation, publi-  
cation and election. C. C. McDONALD,  
(A true copy.) Secretary of State.

The foregoing is a correct and  
complete copy of the proposed  
Amendment which appears for  
the fifth time in these columns,  
and disproves the assertion of a  
certain pro. orator that the anti-  
s went publish it.

A vote For Prohibition is a  
vote to adopt the Amendment  
and to destroy our present local  
option system. A vote Against  
Prohibition is a vote against the  
Amendment and a vote to pre-  
serve inviolate our present sys-  
tem.

Scratch out For Prohibition  
and vote Against Prohibition.

## LAWS UNCHANGED.

Defeat of Amendment Would  
Leave Conditions as Now.

By defeating the state-wide prohi-  
bition amendment the local optio-  
n laws will remain in force just as the  
are.

Counties now under license will  
remain so and counties classed as dr  
will continue the same as if no elec-  
tion had been held.

But on the other hand if the state  
wide amendment carries the presen  
local option system, which has re-  
quired the courts of Texas 34 year  
to perfect, would be wiped out an  
new laws for the enforcement o  
the state-wide provision would have  
to be framed subjecting the state t  
legal controversies for many years to  
come and involving the people in the  
sections where prohibition is not de-  
sired in turmoil and dissension as  
has been the experience of Maine  
Alabama and all other states which  
have experimented with the state-  
wide theory.

### Day on Which Women Rule.

Candlemas day is not celebrated in  
Holland much more than in England,  
but its place is taken by a festival  
unknown in this country, says the  
London Globe. Slipper day in the  
Netherlands is the one day in the  
year in which the Dutch woman claims  
superiority over her husband.  
On that day she rules him to her  
heart's content, and he generally  
obeys good humoredly enough. That  
is, unless she is one of those ladies  
not unknown in Holland or in any other  
country who aspire to complete rule  
over their unhappy partners through-  
out the year.

Despite the inclemency of the weather, a large crowd turned out to the court house Saturday night to hear the speech of Hon. Claude B. Hudspeth of El Paso, State Senator from this district, in opposition to the pending amendment. People from all over the county were present. The Senator was introduced by County Judge H. E. Haass, and delivered an able, logical and convincing speech that was especially pleasing to his auditors. He dealt with the legal and business phases of the question, particularly the personal and property rights of the individual, and showed up the fallacy of much of the pro. argument. He had the sworn statements and statistics that proved beyond question that there are more insane people, caused from alcoholism, in the asylums of Kansas and Maine since the adoption of state-wide prohibition than there were before the adoption, and that there are more insane from alcoholism in the asylums of Kansas than in Texas. Many other good points, covering many phases of the question at issue, were made by the speaker, but space precludes a more extensive review. He made a splendid impression on those who heard him and we all regret that we must surrender our Senator that El Paso may make a congressman of him, but console ourselves with the thought that our loss will be El Paso's and the Senator's gain. He left here Sunday for Castroville where he spoke Monday night and from there went to Bandera county. Mr. Hudspeth has been putting in some telling work for the cause he represents.

### A Medicine As Good As Your Money

#### Money Promptly Refunded if Dodson's Liver-Tone Fails To Take Place of Calomel.

W. H. Windrow's drug store sells Dodson's Liver-Tone as a perfect calomel. If you try one bottle and find that it is not just as sure in its action as calomel and at the same time gentler and without the bad after-effects of calomel, please call and get your money back. It will be given you promptly. Dodson's Liver-Tone is a vegetable liquid with a pleasant taste, that lives up the liver, mildly but surely, instead of whipping it into action as the strong chemical calomel does. It is used by both children and grown-ups for constipation and inactive liver.

That is why W. H. Windrow's drug store is willing to guarantee it absolutely, not with another bottle, but with your money back. Isn't a medicine with a guarantee like this worth a trial?

**WELCOME WORDS TO WOMEN**

Women who suffer with disorders peculiar to their  
sex should write to Dr. Pierce and receive free the  
advice of a physician of over 40 years' experience  
in a skilled and successful specialist in the diseases  
of women. Every letter of this sort has the most  
careful consideration and is regarded as strictly  
confidential. Many sensitively modest women write  
daily to Dr. Pierce what they would shrink from  
telling to their local physician. The local physician  
is pretty sure to say that he cannot do anything  
without "an examination." Dr. Pierce holds that  
these distasteful examinations are generally need-  
less, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of  
your own home. His "Favorite Prescription" has cured  
hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated  
physician. The only one good enough that its makers dare to print its every  
ingredient on its outside wrapper. There's no secrecy. It will bear examina-  
tion. No alcohol and no habit-forming drugs are found in it. Some unscrupu-  
lous medicine dealers may offer you a substitute. Don't take it. Don't trifle  
with your health. Write to World's Dispensary Medical Association, Dr. R.  
V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

**"The Liver Pills act  
So Naturally and  
Easily."**

Such a statement, coming from  
the cashier of a bank, shows what  
confidence responsible people have  
in these pills. Mr. A. L. Wilson  
after trying them wrote:

"I have used Dr. Miles' Nerve  
and Liver Pills and also your  
Anti-Pain Pills, on myself, with  
good results. The Liver Pills  
act so naturally and so easily  
that I scarcely know that I  
have taken a pill. Frequently  
being troubled with headache I  
take an Anti-Pain Pill and get  
immediate relief in every case."

of years cashier of the First  
National Bank of Sparta.

out griping or undue irritation.  
They are not habit forming.

### Country With Only One Bank.

There are no public banking institutions in the Dominican republic, and but one private bank with agencies in the more important towns which buys and sells drafts, makes loans, and is the repository of the government funds.

Buying and selling drafts is an important course of revenue to this bank and also to many private individuals.

Money is easily placed at almost any time at one and one-half per cent. a month, and sometimes at two and two and one-half per cent., with first class real estate or personal security. Long time loans of large amounts are placed at 12 per cent. per annum. Municipalities, borrowing money for improvements and other purposes, pay one per cent. a month.

There are very few depositors in the local bank. Most of the well-to-do people, both among the merchants and farmers, never think of depositing their money, but have small private safes or secrete their hoardings in some other manner.—Moody's Magazine.
